

## Website Access

Contributed by  
Last Updated Sunday, 04 November 2007

Once your website has been created web-sites4.eu will make contact and request that you register on your new site via the 'Login Form'.

Just click on the 'Register' link and this will take you to a registration page that looks like this.

Complete the fields as required and click on 'send registration'.

Once you have done this you will receive an email and you will need to follow the instructions and click on the authentication link within the email.

web-sites4.eu will be notified of your registration automatically. As soon as this happens you will be given 'publisher' rights which will enable you to update your main text content along with adding any images.

Now click on the 'updating your site' link
