

Google Ads

Contributed by
Last Updated Sunday, 04 November 2007

If you wish to include Google Ads within your website you give yourself the opportunity of generating some income by visitors viewing your pages and clicking on the Google Ads. An example is at the bottom of this page and you will see more examples of these advertisements on this website and on www.web-sites4.eu. Whilst looking go ahead and feel free to click on a few ads.

The ads are targeted to the content of your site so visitors will find them useful and relevant.

Although I am happy to include Google Ads within your site it does take time to add the coding within your site so there will be a charge of £25 for a website with 5 pages. If you would like some more information on these ads please go to www.google.co.uk/adsense.
